Gender Pay Gap Report 2022- Bestway Retail Limited

Bestway Retail owns the largest franchised offlicence and convenience chain, operating circa 600 stores trading under the Bargain Booze, Bargain Booze Select Convenience, Wine Rack and Central Convenience brands

This report shows our Gender Pay Gap report for 2022, in line with our statutory requirement, and identifies the difference in average pay between men and women - including bonus payments.

The mean gender pay gap is the difference between the average hourly earnings of males and females.

The median pay gap is the difference between the midpoints in the ranges of hourly earnings of males and females.

It takes all pay rates in order from lowest to highest, and picks the mid pay rate for men and women, which are then compared.

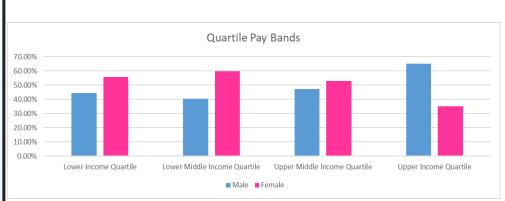

BRL has a broadly balanced gender split. Store roles generally sit within our lower and lower middle quartile pay. These roles are predominantly filled by females this has a significant impact on the mean and median pay gap.

Our gender pay gap is in line with expectations and also reflects that of many other retailers.

The majority of those receiving bonus during the reporting period were participating in a logistics scheme which is predominantly men. We will continue to seek out ways to attract more female workers into our logistics operation. Both the mean and the median bonus gap are negative in favour of our female colleagues, however whilst the bonus is higher for woman it is a very small group of women who receive it. We will look for ways of extending bonus payments for women.
